RE: Web Developer

Dear Sir/Madame

This letter expresses my strong interest in the position of Web Developer at your company. With my working experience as a Web Developer, I build websites and web applications (Point of Sale, Mini Mart, Restaurant Management System, Mini Installment Loan System, Student Attendance System, Baccarat Display Score, and WordPress Theme Development).

I graduated bachelor's degree in Information Technology at Build Bright University. I have the foundation of basic computer networking, web design, and development skills like HTML5 and CSS3, Tailwind CSS, Bootstrap, JavaScript and jQuery, SQL Programming, PHP and MySQL, Object-oriented Programming concepts, Laravel Framework, Livewire, Git Version Control, and LAMP (Linux, Apache, PHP, MySQL) stack.

I would appreciate the opportunity to meet with you and discuss how my skill would meet the requirements of your organization. Attached is my resume for your consideration.

I am happy to become a part of your company, and I will find more benefits for your company as well as I could. Joining your company would give me a chance to develop useful skills that will help in pursuing my long-term career goals and company goals also. Thank you for considering my application, and I look forward to discussing my candidacy with you in further detail.

Respectfully yours,

SOK KIMSOEURN (Mr.)
